| 3 IN 1 | 3 in 1 W=2400 | Width | 2400 | [mm] |
| | | Pump Efficiency | 90 | [m ³ /h] |
| | | Optimal Length | 8 + 3,6 Landing Unit | [m] |
| | | Average Slope | 24,8 | [%] |

Slide 3 in 1. It is an ideal solution for users who like diversity. Composed of three integrated lanes, each of different sliding shape, it allows to use even small space to make any structure more attractive, shall draw its users' attention for hours and give a fair degree of diversity each time it is being used. The structure allows it to be installed outdoors as well as indoors*. Slide 3 in 1 shall be the perfect supplement for every recreation complex.

* Depending on the available space.
