

# FROG

0200

## DESCRIPTION:

The frog is an attraction that requires a permanent connection, so that water is constantly spraying out of it, like a small fountain. It works great as an integral part of themed playgrounds, as well as a stand-alone water attraction. The frog is an ideal toy if you want to create a playground modeled on a tropical forest. Functional and durable design will provide the youngest with safe play for years.

## TECHNICAL DATA / mm:

Height:	850	Weight:	14 kg
Width:	600	Pump Efficiency*:	3-6 [m <sup>3</sup> /h]
Length:	600		* or hand pump
