

# DOLPHIN

0350

## DESCRIPTION:

The DOLPHIN toy was designed as a water attraction for the youngest water enthusiasts. The possibility of choosing the color version allows for the perfect integration of this attraction into the interior of the facility. Our water attractions automatically spray water, and in the option with a hand pump, children can independently spray water from the attraction. DOLPHIN will make the time more pleasant and stimulate the imagination of the youngest users of swimming pool complexes. Thanks to the installed water pump (additional option), the toy encourages active play, also with parents. It is a great addition to the equipment of toddler pools while maintaining all safety rules.
